

Dear Parent,

22nd April 2021

Warm greetings from Scotspine International School. Hope all is well with you. In the wake of persisting COVID-19 pandemic, it is likely that re-opening of schools will be delayed further across the nation. We assume that the students will have to keep away from school for some time. However, we are fully geared up with relevant technology to continue our online live classes with clear structure and planning to ensure academic continuity for your ward until schools are permitted to reopen.

We request you to provide your ward with smart phone/laptop, so that he/she continues to attend online classes though you are engaged elsewhere every day. We will continue to put in all our efforts to provide education to your child through all available means of technology.

The online classes for the session (2021-22) will commence from 26th April 2021. We request you to follow the guidelines mentioned below for availing the classes effectively: -

- The students must attend all online classes without fail.
- They should sit at such a place where there is a good ventilation and good Wi-Fi network.
- Worksheets to be submitted on time to the concerned teachers.
- After online classes, students must complete in a separate notebook the assignments posted in the group. The assignments will be checked periodically.

At Scotspine, learning continues

❖ *Stay Home, Stay Safe, Stay healthy*

Regards

Nirmala Gutta
Principal
