

A Memorable Trip to KodaiKanal

Tejasi. K

Grade 5

I love to travel but I'm missing travelling these days due to Covid-19 pandemic. I travelled to many places, but my favorite trip was KodaiKanal trip which I went just before pandemic. It was a trip by car and I'm going to share my experiences.

Day 1 STARTS from CHENNAI

We got up at 4:30 in the morning and we set off by road. We travelled for a few hours and stopped at a small dhaba. There I ate Dosa & Poori and on the way we saw many butterflies. They were of many colours Blue, Green, Red, and so on. At lunch time we reached Dindigul Thalapakatti. It was a big restaurant we all were very hungry. There we ate biryani, and then we again continued our journey. We reached the Ghat Road, from there it was one-hour journey by the ghat road to reach Kodaikanal. It was scary as the road had steep and narrow curves. While we were on that Ghat road I saw a pony passing by. We reached Kodaikanal around 3'O Clock. Then we followed the google maps to reach our hotel, it was a hill top hotel. I was scared whether our car would climb the hill and I also thought if it was the correct address. So my mother and I got down the car to check whether we reached the correct hotel. At the reception we enquired and got our room.

Oops! I forgot to mention about Silver Cascade water falls. While entering Kodaikanal we visited these beautiful water falls which were huge. Then we got out of the car to see the falls. It was very chilly, so I was shivering. Then I saw many monkeys, they were coming close to people in between photos and grabbing the food from the people.

After reaching the hotel we were so tired. We ordered some snacks. We took rest and had dinner very early and slept off. While sleeping I was thinking about the next day's TRIP....

.....
